Industrial Construction**

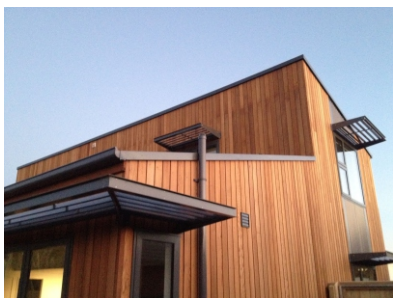

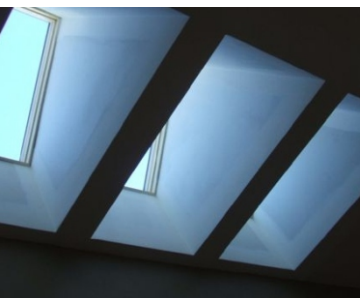

**Project Managed
Construction**

**Quality Building
& Workmanship**

**SMALL ENOUGH TO LISTEN,
BIG ENOUGH TO DELIVER**

DESIGN & BUILD SERVICES

Lightning Construction employs a dynamic approach to the integration of design and construction. We promote informed design decisions. Budget, planning and site specific constraints are established, construction methods and material options explored, and non-negotiable project essentials are clarified. Our aim is to deliver the best project value possible, without compromising on design aesthetics, building functionality or construction quality.
