Fire Extinguisher & Emergency Evacuation Training

Fire & Emergency Training

We offer many types of Fire & Emergency Training:

Basic Fire Extinguisher Training

Unit Standards 3271 & 4647
Fire Warden and Evacuation
Training

Specialised Fire Training specific
to your needs

Trial Evacuation Training

Training on Fire Protection,
Detection and Staged
Evacuation systems

Live use of Fire Extinguishers and
Hose Reels on our Simulator

Benefits

Safe and environmentally
friendly (LPG fired)

Fully mobile so we can come to
you

No noise, disruption or danger to
surrounding areas

Allows staff/students to actually
use and feel a fire extinguisher
on a live fire

Staff/Students can visually see
how a fire behaves and what
heat is released

A multitude of props to simulate
different fire & evacuation
situations

Overview of courses:

Fire Extinguisher Training : NON UNIT STANDARD

We visit site with the Live Fire Training Simulator and carry out a power point presentation and theory session on Principles of fire, types of fire and suppression methods, fire hazards, dangerous goods, evacuation, basic fire safety, Basic emergency management, we then have a practical session where up to 15 staff can use a co2 extinguisher and a fire hose reel and we demonstrate other types. Each staff member gets a certificate and training manual, we then complete with a Q & A session. Theory and practical will take approx 2-2.5 hrs.

We will provide all the equipment for the training.

Warden Training- Specific- required – Non unit standard

The Warden Training programs are usually completed on your site in one of your training rooms.

We will present a PowerPoint presentation along with interactive learning to cover the following detail, we will ensure the information is in line with your in house procedures and also meets legal requirements. Our detailed Fire Warden Training course runs for approx 2- 2.5 hrs and covers all aspects of evacuation, planning, drills, notification, legislation, fire & safety systems, disabled persons, signage, dangerous goods and the NZ Fire Service.

The 15 staff all receive training material and a certificate, the employer also receives a certificate for their records.

Unit Standard 18408 - Fire Emergency Warden Duties can be delivered on request

Unit Standard 3271 & 4647

Explain principles of Fire Science - NZQA Unit Standard 4647- Suppress fire with hand extinguishers and fixed hose reels - NZQA Unit Standard 3271: We visit site with the Live Fire Training Simulator and carry out a power point presentation and theory session on Principles of fire, types of fire & suppression methods, fire hazards, dangerous goods, evacuation, detailed fire safety, emergency situations, we then have a practical session where up to 15 staff can use a co2 & Dry Powder extinguisher and a fire hose reel and we demonstrate other types. Each staff member gets a certificate and training manual, we then complete with a Q & A session. Theory and practical will take approx 4 hrs We will provide all the equipment for the training.
