

THE AQUA TECHNICS EDGE

What sets us apart from the rest

FADE FREE

All our pools come with Pool ColourGuard® surface protection, which resists the effects of UV rays and chemicals, guaranteeing pool colour that will not fade.

QUALITY ASSURED

Pools built to AS/NZS 1838 under certification license BMP 520101 and in compliance with AS/NZS ISO 9001 Quality System. Aqua Technics is measured and tested by an authorised, independent auditor. Any pool company can claim to build to the Standard. For your peace of mind, always ask for a license number.

LIFETIME WARRANTIES

Pool ColourGuard® Lifetime Interior Surface Guarantee* and Extended Lifetime Structural Warranty - our commitment to providing extended warranties above standard ones.

ANTI-MICROBIAL PROTECTION

Microtech Anti-Microbial Pool Protection guards the pool's surface against the growth of bacteria, making it exceptionally hygienic and safer for your family.

PRECISION MOULDS

New designs are built using a 5-axis CNC router with computer generated sculpting robotics ensuring precision moulds built to exacting tolerances. The edge beams are true, the shapes geometrically perfect and the surface finish is without peer.

SUPERIOR STRENGTH

Full sized structural ribs, fully supported steps and bench seating and a wider edge beam mean the pool is independently structural and eliminate the need for secondary engineering works. New high strength, corrosion resistant fibreglass produces a stronger, stiffer pool - pools are up to 20% stronger. The ceramic core also provides exceptional structural strength and stiffness to the pool with the added benefits of increasing thermal insulation and eliminating osmotic blisters.

SUPERIOR MATERIALS

All pools are manufactured using new generation, high performance, corrosion resistant, eco-friendly fibreglass with improved strength and stiffness. An onsite gelcoat manufacturing facility means daily batching of materials for a better product. Only specialty materials are used - no general purpose products.
