

....delivering shutter & blind solutions
beyond your expectations

INTERIOR Shutters & Blinds

CONTEMPORARY Shutters - We offer a contemporary range of shutters manufactured to the highest quality standards in 6 different wood types. This enables us to match the style and budget requirements of every customer. Our timber shutters are made from a sustainable resource. These shutters are designed for interior use only and are available in 5 different blade sizes and 2 different tiltbar styles. The easytilt is now our most popular shutter as it allows you to have a clear view through the blades. We have an extensive range of standard paint and stain finishes or we can also offer a custom colour option for the timber shutters. Motorisation of the shutter blades is also available in the timber shutters.

VENETIAN Blinds - A venetian blind will give you the flexibility of being able to control the UV, light and privacy in your home by simply tilting the slats to the desired angle. We offer an extensive range of venetian blinds in a variety of products.
Timber Venetians - these are available in Basswood or Phoenixwood. There is an extensive range of standard colours and custom colours are available. Slat sizes are 35mm, 50mm & 63mm.
Ecowood Venetians - a composite blind which is great for bathrooms.
Aluminium Venetians - available in 25mm slat or the more modern 50mm slat.

THERMACELL Blinds - Thermacell Blinds are an attractive cellular blind that are renowned for their insulation properties. They can increase the thermal insulation of your window by up to 3 times that of a normal curtain.
Spun Lace Fabric - this light filtering fabric looks awesome in all living areas.
Blockout Fabric - this is great for darkening and warming the bedrooms. Choose from 3 cell sizes and a large range of pastel and neutral colours that will enhance the décor in any room of your home. Ask about our NEW Day - Night Option.

ROLLER Blinds - We have sourced a huge range of fabrics from a variety of suppliers to bring you the best selection of colours, textures, designs and prices. This allows you to make a decision based on both style and budget, without compromising the final look.
Sunfilters - textured or plain allowing you to filter UV and retain your view.
Lightfilters - maintain privacy at night whilst filtering light in the day.
Blockouts - great for the bedroom where room darkening is essential. Available in standard chain, one touch control and motorised.

Santa Fe is the leading specialist Shutter, Blind & Screening Company.

We offer an extensive range of interior window treatments & exterior sun shade solutions, to keep your home cooler in summer and warmer in winter.

EXTERIOR Shutters, Screens & Blinds

HERITAGE Shutters - Our NZ made Heritage Range of shutters are manufactured from Western Red Cedar by our team of skilled craftsmen. We have 9 blade sizes and styles available with the choice of either adjustable or fixed blades. Their uses range from simple gable end and decorative shutters with fixed blades to large shutters with adjustable blades that slide or bifold on decks. The shutters can be finished with a variety of paint, stain or lacquer finishes to match your décor.

FLORIDA Shutters - These shutters are manufactured from aluminium and are used extensively as deck shutters to give you protection from the wind and sun as well as privacy from neighbours. Our most popular shutter has 115mm adjustable blades and is also available with 90mm and 150mm blades. The shutters can be fixed into your deck opening to allow you to adjust the blades to create the perfect environment. If you prefer the option to have the deck clear of shutters then they can be installed to slide or bi-fold.

MALIBU & HORIZON Ranges - This range of fixed blade screens & shutters are manufactured from aluminium with fixed aerofoil blades or slats. The blades can be fitted into different sizes of welded or riveted frames to match your requirements. They can be used in a large variety of designs and concepts around your home or commercial building. From infill panels in the fence to exterior window shades, garden screens and privacy screens on your deck, we can design and manufacture a solution for you in a colour of your choice.

SUNFLEX Range - The Sunflex Blind is an exterior motorised venetian blind that gives you full flexibility to control; the heat and UV entering your home. However, unlike many other fixed blade aluminium screens, this also offers you the unique advantage of being able to lift the blind clear of the window at the touch of a button on days when you wish to take advantage of the view or the warmth of the sun. These blinds look fantastic on any residential or commercial building and are available in 80mm and 100mm slat in 4 standard colours.

GLIDETRAK Range - Glidetrak is an exterior roller blind with a difference. No longer do you have to struggle with ropes, zips, ties & pulleys. The fabric is lowered in specifically designed aluminium side channels simply by rotating a handle attached to a winder. The blind is held firmly in these channels ensuring that the weather is kept at bay and allowing you to enjoy your exterior living area all year round. They can be manufactured with either clear PVC or sunscreen fabric in a variety of colours. Black sunscreen is a very popular choice as it allows you to see clearly through to the view but at the same time reduces glare from the sun and is also very easy to maintain.
